

This special issue of Inside PMB is about relocation. 2013 began a new era for the National Cancer Institute as, during a 6 month period, over 2,100 employees move to a newly constructed LEEDS-certifiable building in Rockville, MD. The Cancer Therapy Evaluation Program (CTEP) moved March 21st and 22nd. We are providing new contact information for the CTEP branches to assist everyone as we adjust to the changes.

PMB staff at EPN, Executive Blvd
